TECHNOLOGY IN DENTISTRY

Worthington Advanced Dentistry

Dr. Joseph Worthington

Worthington Advanced Dentistry is proud to offer the highest quality dentistry using the latest technology available. With offices in both Fairfield and Manhattan, Dr. Worthington has been creating and perfecting smiles for over 33 years.

Showcased here is his latest technological advancement. Imagine visiting the dentist for a porcelain crown or filling and having it started and finished in just One Visit! With the Amazing Cerec Technology you see there is no need for

those messy uncomfortable impressions or those annoying temporary crowns.

Your tooth is scanned into the computer and the restoration is designed and fabricated while you wait!
